Hello
Accenture interview experience 18oct
Self intro
Tell me about your project and how did you face the challenges
Situation where you have converted problem to opportunity.
Situation is how do handle if one of the team mate takes your credit but the work was done by you
Situation is how did you handle conflicts in a team
Situation - what will you do if there's negative feedback on you which affects your appraisal or deduction in the salary?
Situation is if your expertise on one technology like DL,if there are no projects on that technology,will you do on any other technology like Salesforce
Have you done any other courses apart from your curriculum and why you have chosen that course
What is your unsuccessful moment?
Any questions (I asked about the role of the company for the first 3months)

Another situation is how do you handle one of the team members who does not handle the work

Another question how the work was allotted in your project

My Accenture interview
Oct 21
Self intro
Project
Challenges faced in project
Internships
What you learnt from internship
Hobbies
Certifications
Being an ece student why you choose it field
Inter personal challenges
Any questions

Bro I'm sharing my Accenture interview exam

Tell me about yourself.
Which college, school, regarding cgpa and percentage.
Why less cgpa?
About projects in resume.
Feedback about projects in resume.
Favourite subject, why?
Challenges faced in the team environment, how did you overcome?
How did you turn a problem to opportunity.
Why Accenture?
More questions regarding projects.
Any questions for me.

End
